MCA
(SEM. IV) THEORY EXAM. 2014-15
CLIENT SERVER COMPUTING

Time : 3 Hours]

[Total Marks : 100

Note : Attempt the questions as indicated.

Q1. Attempt any *four* questions from the following : 5x4=20

- (a) Differentiate between centralized and distributed computing.
- (b) What is the difference between database schema and database state?
- (c) Discuss the advantages of a three-tier client server architecture over two-tier client server architecture.

- (d) Discuss the role of object technology in client/ server development.
- (e) Is it always beneficial to go for client/ server computing? Yes or No? Explain. Give certain applications where it is not recommended to use C/S computing.
- (f) Discuss some of the ways to improve performance in client/server developed applications.

Q2. Attempt any *four* questions from the following : 5x4=20

- (a) What is meant by object linking and embedding (OLE)? Explain.
- (b) Discuss the role of server in detail.
- (c) Compare object oriented and relational management system features.
- (d) Discuss the distributed computing environment (DCE) architecture in detail.
- (e) Discuss the OSI reference model in detail.
- (f) Explain Asynchronous Transfer Mode (ATM).

Q3. Attempt any *two* questions from the following : 10x2=20

- (a) Discuss the client/server systems development methodology in detail.
- (b) Write short notes on the following :
 - (i) X-terminals
 - (ii) UNIX work station.
- (c) What is meant by WAN? Discuss the various WAN technologies in detail.

Q4. Attempt any *two* questions from the following : 10x2=20

- (a) Discuss the various LAN and Management issues in detail.
- (b) Describe the following :
 - (i) RAID-DISK
 - (ii) Optical disk
 - (iii) NICs
- (c) Write short notes on the following :
 - (i) Software Distribution in C/S Environment
 - (ii) MTTR and MTBF

Q5. Attempt any *two* questions from the following: 10x2=20

- (a) Discuss the various training advantages of GUI applications in detail.
 - (b) Write short notes on the following
 - (i) Expert systems
 - (ii) POS
 - (c) Describe the following
 - (i) Text-management process
 - (ii) Emergency Public safety
-
