BFAD

(SEM. I) (ODD SEM.) THEORY
EXAMINATION, 2014-15
FIBER TO FABRIC - I

Time : 3 Hours]

[Total Marks : 100

1. Attempt any two: **2x10 =20**
 - (a) Explain polymerization?
 - (b) Explain fiber primary properties?
 - (c) Define cellulosic fibre?

2. Attempt any two: **2x10=20**
 - (a) Explain fibre morphology?
 - (b) What is viscose?
 - (c) Describe growth and development of fibre?

3. Attempt any two: **2x10=20**
 - (a) What is felting of wool?
 - (b) Explain the types of spinning?
 - (c) Explain about polymer system?

4. Attempt any two: **2x10=20**
- (a) Write about chemical properties of manmade fibres?
 - (b) Write about synthetic fibre – acrylic and nylon.
 - (c) Explain natural cellulosic fibre- cotton and linen?
5. Attempt any two: **2x10=20**
- (a) Explain silk and its importance?
 - (b) Explain about Wool and its importance?
 - (c) Explain the physical properties of manmade cellulose?
-
